

This position provides a unique opportunity to join a successful boutique investment management firm, working in a highly professional and dynamic environment. The position requires a confident, independent, professional programmer/analyst who would enjoy working as a fully-integrated member of a small Information Technology team, reporting to the Application Development Manager.

Rainier Investment Management, Inc. is headquartered in Two Union Square, in downtown Seattle. The firm currently has 70+ employees working together to provide clients with superior service while managing approximately \$19.3 billion in assets in mutual funds and separate client accounts.

The Application Developer/Analyst works in a wide variety of technologies and with all areas of the business. A successful applicant will be flexible in taking on a wide-range of tasks and shows a willingness to grow and learn. Key characteristics include attention to detail and responsibility for all aspects of their work.

Application Developer/Analyst

Seattle, Washington

RELATIONSHIP

This position reports directly to the Application Development Manager and will interact with colleagues from across the firm in a wide variety of capacities.
